Ligonier Sept. 2d. 1775

Dr Sir

143

On my arrival here I immediatly sent to the Mills but they are so scarce of Water that they cannot near supply the Necessitys of the Country so that this Morning I thought it necessary to send off an Express to Bedford to Nagle and have requested him to send up as soon as possible ten Thousand Pounds of Flour and as the Messenger would overtake Mr. O'Hara I sent Mr. Mackays Letter to him and desired Nagle that he would immediatly load back his Horses as the securing the third part of the Carriage was of some Consequence — You shall hear what Success I have in Beef by the next Opportunity

I am

Dear Sir

Your very Humble Servant

J. J. Clair
